

VonAI

AI Readiness Scorecard

A 10-minute self-assessment to see where your firm stands on data, workflows, and team readiness before investing in AI.

This is a placeholder document.

The final version of this resource is being prepared. In the meantime, if you'd like the production-ready version or have questions about applying its content to your firm, get in touch with the VonAI team.

What this resource covers

- A clear framework you can apply this week
- Examples drawn from real B2B services engagements
- Practical scoring or checklist tools, not theory
- Next steps to turn insight into a measurable outcome

About VonAI

VonAI helps B2B services firms stop experimenting with AI and start measuring results. Based in Helsinki. Working globally.
